

**Name: Mrs M Kaur**

**Class: 1S**

### **Why Teaching?**

My childhood dream was to become a teacher and I achieved it through hard work and determination to succeed. I love my job as a teacher because every day is different. I enjoy seeing the spark on a child's face when they learn something new and suddenly realise I can do it! Being a teacher means that I can make a difference to the lives of young children and people. I love the idea that teaching allows me to take part in shaping the next generation.

### **Advice for My Students:**

I always say to my pupils never give up, always try your best in everything you do and I am sure Waheguru Ji will guide you to success. The more that you read, the more things you will know. The more that you learn, the more places you'll go.

### **Favourite Proverb:**

"Education is the most powerful weapon which you can use to change the world."

### **Person Living or Dead I Would MOST Like to Meet and Why:**

John Dewey: 'I believe that human beings learn through a hands-on approach'. He believed that students must interact with their environment in order to adapt and learn. He is an influential educator who changed the fundamental approaches to teaching and learning which I wish to adopt in my teaching and learning approach.
