Welcome to the first community newsletter from Bowmer + Kirkland regarding the refurbishment and extension of Seva School in Coventry.

Project Information

The project will include a two-storey extension to Eden House incorporating a new sports hall. In addition, a single storey extension to Link House will feature a new Diwan Hall, alongside other refurbishment works to Eden House/ Link House.

We began on site last month, with full completion aiming for Autumn 2025. Earthworks have started, reducing the ground levels to allow construction of a sports pitch and MUGA. Demolition of existing internal finishes and installation of new site services will start soon.

We always aim to keep all disruption to a minimum. As such, cleaning vehicles will remove any mud on the highways and deliveries are scheduled to avoid school drop off and pick up times.

Thank you for your patience and understanding during the construction process, we will keep you updated on forthcoming works with regular newsletters.

If you have any questions or comments please contact our Project Manager (below). Alternatively, send us a comment about this site, scan the QR code (right) and send us your message or Text (including the site ID number 02221) plus your message to 07400 334 880

Considerate Constructors Scheme Code of Practice

Organisations registered with the Considerate Constructors Scheme make a commitment to conform to the Code of Considerate Practice.

Through consideration to community engagement, the environment and workforce wellbeing they strive to improve the impact of the construction industry and leave a positive legacy through the implementation of best practice.

The Code of Considerate Practice defines the fundamental expectations for registration with the Scheme. The Code applies equally to all organisations registered with the Scheme, regardless of size, type or location.

Respecting the Community

Constructors must manage their impact on their neighbours and the public to support a positive experience, by:

- Ensuring courteous and respectful language and appropriate behaviour in and around the construction activity.
- Providing a safer environment, preventing unnecessary disturbance, and reducing nuisance for the community from their activities.
- Proactively maintaining effective engagement with the community to deliver meaningful positive impacts.

Care for the Environment

Constructors must minimise their impact and enhance the natural environment, by:

- Prioritising environmental issues to protect the natural environment and minimising negative impacts.
- Optimising the use of resources, including minimising carbon throughout the value chain.
- Engaging with the community to improve the local environment in a meaningful way.

Value their Workforce

Constructors must create a supportive, inclusive, and healthy workplace, by:

- Actively encouraging and supporting an inclusive and diverse workplace.
- Proactively supporting safe working, mental and physical wellbeing at work.
- Providing workplaces that are, well maintained, clean and secure from physical and biological hazards.
