Almost all children can get the flu vaccine as a nasal spray. This is the recommended vaccine. The nasal spray contains gelatine and may not be acceptable for some parents.

The nasal spray has gelatine. If this is not suitable, choose on the consent form the flu injection that is gelatine-free.

These are expected to have lower effectiveness.

If you have more than 1 child at the school you will need to **complete a separate form** for each child. You can do this by clicking on the link again.

Please make sure it is your **child's name and date of birth** recorded on the form. Before submitting the form, please check details are correct

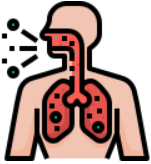

Flu vaccination is yearly. If your child got the vaccine last year they will need it again to stay protected.
