sarah.millington@bandk.co.uk.

Welcome to the latest newsletter from Bowmer + Kirkland regarding construction of refurbishment of Seva School in Coventry.

Project Information

Work on site is progressing well. We have now installed the sports hall roof and completed glazing and curtain walling to two elevations.

Internally, we have started the partitioning, fire stopping and mechanical and electrical works. Externally, the fencing to the new sports pitch and MUGA is well underway.

As part of the school's career week, our site team were joined by our social value manager and carried out an assembly on careers in construction and World Mental Health Day.

We thank you for your patience and cooperation during the construction period and aim to keep all disruption to a minimum. We will keep you updated on our construction activities with regular newsletters.

If you have any questions or comments please contact the project manager below. Alternatively, send us a comment about this site, scan the QR code (right) and send us your message or Text (including the site ID number 66665) to 07400 334 880

Considerate Constructors Scheme Code of Practice

**CONTRACTOR
AND SUPPLIER
PARTNER**

**CONSIDERATE
CONSTRUCTORS
SCHEME**

Organisations registered with the Considerate Constructors Scheme make a commitment to conform to the Code of Considerate Practice.

Through consideration to community engagement, the environment and workforce wellbeing they strive to improve the impact of the construction industry and leave a positive legacy through the implementation of best practice.

The Code of Considerate Practice defines the fundamental expectations for registration with the Scheme. The Code applies equally to all organisations registered with the Scheme, regardless of size, type or location.

Respecting the Community

Constructors must manage their impact on their neighbours and the public to support a positive experience, by:

- Ensuring courteous and respectful language and appropriate behaviour in and around the construction activity.
- Providing a safer environment, preventing unnecessary disturbance, and reducing nuisance for the community from their activities.
- Proactively maintaining effective engagement with the community to deliver meaningful positive impacts.

Care for the Environment

Constructors must minimise their impact and enhance the natural environment, by:

- Prioritising environmental issues to protect the natural environment and minimising negative impacts.
- Optimising the use of resources, including minimising carbon throughout the value chain.
- Engaging with the community to improve the local environment in a meaningful way.

Value their Workforce

Constructors must create a supportive, inclusive, and healthy workplace, by:

- Actively encouraging and supporting an inclusive and diverse workplace.
- Proactively supporting safe working, mental and physical wellbeing at work.
- Providing workplaces that are, well maintained, clean and secure from physical and biological hazards.
